

## Disaster Preparedness - Tip of the Month

### Stay Safe As You Play!

Many of us go out biking, running, hiking, skiing, snowboarding, etc. and do you always carry an ID and emergency contact info? Have you ever thought that if you do carry your phone, no one could use it because of your access code? And if you carry your wallet or ID and are not able to tell someone who to call, they may not know who to call? Scary to think about, isn't it?

RoadID is one great, easy to wear solution (see photo for options).

You can find RoadID online or follow this link: <http://RoadID.com>

Whatever method you use, consider carrying essential info in case of an emergency.  
**Stay Safe as you play!**

Road IDs are available in Interactive and Original versions. See [RoadID.com](http://RoadID.com) for more info.
