

HealthLife / Mammoth Patient Portal Proxy Authorization

What is HealthLife/Mammoth Patient Portal?

HealthLife / Mammoth Patient Portal is a secure online website that gives patients convenient 24-hour access to their personal health information from any internet connection. Using a secure username/password, patients are able to view health information such as recent doctor visits, discharge summaries, medication lists, procedure lists, radiology reports, lab results, and other visit information. Patients can schedule appointments and send messages to their health care provider.

What if someone else manages your healthcare needs?

If you would like to grant access to your medical records to another adult, or if you share an email address with someone. Please check the box below, and complete this form. We will send an invitation to access your medical records to the proxy's email address you provide.

- Please send a patient portal invitation to my proxy: I share an email with someone or someone else manages my health care needs. I understand that I may revoke this access at any time by contacting the Mammoth Hospital Medical Records Department at (760)924-4041 or by sending an email to: HIMS.Email@mammothhospital.com.**
